

In preparing the material for the Voters Guide, Mr. Coghill's information was accidentally omitted from the file sent to the New Pittsburgh Courier. The designation "No Reply" in the Guide is incorrect. The League of Women Voters apologizes for the error. Mr. Coghill's information appears below.

ANTHONY COGHILL, Pittsburgh PA info@coghillforcitycouncil.com 412-424-9964
Website <http://www.coghillforcitycouncil.com>

EDUCATION: John A. Brashear High School Class of 1984

OCCUPATION: Roofing Contractor. Owner, Coghill Roofing Co.

QUALIFICATIONS: I have long been dedicated to the south Pittsburgh community. As a successful business owner, chairman of the 19th Ward and a community leader, my commitment to our neighborhoods has helped me to garner strong support and the right qualifications for this office.

QUESTIONS:

1. *What recommendations do you have for improving the Pittsburgh Water and Sewer Authority (PgH2O)?*

ANSWER: We have to find ways to help improve our infrastructure and address the deteriorating conditions of our aging water and sewage systems. I will work with our state legislators to secure funding for residential assistance in improving infrastructure and taking the burden off of homeowners when it comes to improvement. I strongly believe that the burden of years of neglect to our systems should not fall into the tax payers lap.

2. *What is your position on requiring developers receiving public funds to allocate a portion of their apartments as affordable, accessible (ADA) units?*

ANSWER: I believe that developers who receive public funds have a responsibility to the taxpayers to provide affordable and accessible housing. Community input is necessary and should be encouraged at all levels of decision making when it comes to neighborhood development. Making sure that the voices of residents are prioritized will lead to affordable, accessible, and responsible development in the city.
